Appointments

All GP consultations are by appointment. We operate 10 minute consultation slots, and only one patient per appointment. Any urgent cases will be seen on the day. We also endeavour to accommodate all non urgent appointment requests within 2 working days. We accept online, telephone, and in person appointment bookings. If you feel that you may need more than a ten minute consultation to discuss all your issues with either the doctor or nurse, please ask for an extended appointment. When booking an appointment it is helpful if you can let the receptionist know the reason for the appointment as some procedures can only be performed by certain staff members and others require longer appointment slots such as spirometry. If we

have a record of your mobile number you will receive a text message reminding you of the time of your appointment.

If you are late for your appointed time, we will still endeavour to see you within the same session, but this will usually be at the end of the session so as not to inconvenience other patients.

We ensure that our healthcare assistants and nurse have a number of unfilled slots every day which enables us to operate a '**one stop shop**'. If you are seen by the GP and he/she requests certain investigations (eg blood tests or ECG as part of your work up) or notices that certain parts of your chronic disease reviews will soon be due, he/she may request that you have this done during the same session, as long as this is convenient for you. This enables us to operate more efficiently and saves you multiple trips back and forth to the surgery.

Home Visits

You may only request a home visit if you are housebound or are too ill to visit the practice. The GP will call you back to establish that your medical condition requires a home visit and to decide how urgently a visit is needed. If you do need a home visit, you can help us by calling reception as early in the day as possible.

Comments & Complaints

We make every effort to give the best service possible to everyone who attends our practice. We have a comments and suggestions box and also a book at reception for your positive and negative feedback.

We are aware that things can go wrong resulting in a patient feeling that they have a genuine cause for

complaint. If this is so, we would wish for the matter to be settled as quickly, and as amicably, as possible.

To pursue a complaint please ask at reception to speak to the practice manager who will deal with your concerns appropriately. Further written information is available regarding the complaints procedure from reception.

Disabled Access

We have a hearing loop fitted in reception. The ground floor of the surgery site and all clinical rooms are fully wheelchair accessible from the main front entrance. We have plans in place for a lift to the first floor and improved wheelchair ramp access to the main front entrance, as well as to the rear car park in the near future.

Abusive and Violent Patients

We do not tolerate anti-social behaviour and any patient acting in such a manner may be removed from the practice list.

Confidentiality & Access to Records
